**Miller Place, NY** - Brookhaven Highway Superintendent Daniel P. Losquadro and Councilwoman Jane Bonner were at the Miller Place Fire Department on November 14<sup>th</sup> providing parents and guardians with child passenger safety tips. The two town officials partnered with the EAC Network and Miller Place Fire Department to give residents an opportunity to schedule an appointment and ensure their children's car seats are installed correctly.

"At least four child safety seats were determined unsafe by certified instructors at this event," Superintendent Losquadro said. "These seats were removed and replaced with new safety seats that will help prevent injuries to these children in the incident of an accident."

"As a parent and councilwoman, it was very great to work with Superintendent Losquadro toward bringing this event to Miller Place," Councilwoman Bonner said. "I certainly shared in the joy with parents who left knowing their children's car seats are safe and installed correctly."

"Parents obviously want to do the right thing for their children by keeping them safe," Superintendent Losquadro said. "It is rewarding to bring together certified technicians from the Highway Department's Division of Traffic Safety and members of the EAC Network to provide this service and peace of mind. I also want to thank the Miller Place Fire Department for allowing us to use their building for this event."

For more information regarding child passenger safety, please call Safety Town at (631) 363-3770.
